

GO AHEAD AND THROW

By: Randy Swift

The brethren came to Jesus with a woman taken in sin
With stones in hand they had a plan to do this woman in
But as though Jesus heard them not; he stooped down on the ground
And scatched out a silent sermon that made them put their weapons down

Go ahead and throw, If you are a sinless man
Go on and throw, Do exactly what you planned
But make sure he who is without sin strikes the very first blow
Don't just stand there, Go ahead and throw.

I've witnessed a lot on murders along my Christian walk
But they were never done with a knife or gun, all it took was a little talk
I can't understand what would make a man want to run down another man's name
This tongue is a little bitty member but it kindles a great big flame.
