

# River of Tears

Randy Swift 9-15-04

V1

I heard a preacher preaching many years ago  
He was talking bout our tears & where it is that they go  
He said tears fall as evidence of joy or pain  
Sometimes just a trickle, sometimes like rain  
It's liquid emotion streaming down our face  
Lordy! This heart is a powerful place...

V2

Everything's got a purpose in the master's plan  
You know it's been that way since the dawning of man  
God saves every tear and he puts them away  
There's gonna come a time for the reckoning day  
So when the Lord gets ready and the time is right  
He's gonna wash that devil right out of our life

Ch

***Cause the devil can't swim in the river of tears  
Where all of God's children cried away their fears  
God puts them in a bottle and he saves them for years  
Cause the devil can't swim in the river of tears...***

Bridge

You know the devil can't stand to see a tear at all  
Cause the river gets bigger every time one falls  
It's gonna spell the end for the father of lies  
I tell you it's enough to make a grown man cry...
