

Go Thy Way
Randy Swift 10/26/03

She'd done everything on earth she knew to do
Spent all the money that she had on doctors, that didn't have a clue!
Sitting on rock bottom; the chance of getting well was looking slim!
He wasn't calling to her so she stepped out on faith and went to him...

No! He wasn't calling to her, like the blind man he found sitting by the way
Or like he called to Lazarus to come out of the tomb where he'd been laid
But there was something deep inside of her that was telling her it was gonna be O.K.
And when she finally touched him he said faith has made thee whole go thy way

You may be just like her, done all you know to do.
Searching for the answers to the questions life is asking you.
Waiting on a voice to call, But it may only speak inside your heart
Don't be afraid to step out like the woman did and make a brand new start
